

ARTS & CRAFTS PLAN

FLIPPING PANCAKE CRAFT

EQUIPMENT

White & yellow paper
Scissors & Glue
Pancake and frying pan template

Felt tips / Paint / crayons
Eyes

METHOD

Colour in the frying pan and cut out.

Draw a pancake (or draw round template) out of the yellow paper. You can also cut out two arms for the pancake if you want!

Draw round your hand, colour in and cut out.

Stick down the palm of the hand onto the right hand side of a piece of paper but don't stick down the fingers.

Stick down the frying pan so the handle is in the palm of the hand.

Fold the fingers up so they are wrapped around the handle.

Take a strip of paper and stick into a concertina.

Add eyes and a smile to the pancake and then glue one end of the concertina onto the back.

Glue the other end of the concertina onto the paper above the frying pan so it is jumping out the pan!
