Arts & Crafts Plan

Blow painted snails

Equipment

White card
Coloured card / paper
Paint
Water
Straws
Small bowls
Glue
Scissors

Method

Water down some different colour paints in small bowls.

Cut out a fairly large circle for the snail shell.

Using brushes, place blobs of different coloured paint onto the snail shell.

Using a straw, gently blow into the paint to spread the colours across the shell. Leave to dry.

Meanwhile, on coloured card cut out the snail's body. Cut out eyes on white card and colour in.

Stick the eyes onto the snail's body and draw a smile.

	Finally, stick your shell onto your snail!
