Arts & Crafts Plan

Bumble bee craft

Equipment

Paper
Paint
Bubble wrap
Scissors and glue
Pens

Method

1. On a piece of paper, draw and colour in / paint a branch of a tree.

2. Cut the bubble wrap into smaller pieces for each child to use as a stamp / print. (if you have fewer children they could paint and stick on the bubble wrap if preferred)

3. Paint the bubble wrap stamp and print onto the page, just under the branch to make a bee hive.

4. Using your finger, press some paint on the page around the hive. These will become your bees.

5. Once the paint is dry, colour in some stripes and add faces and wings.
