

ARTS & CRAFTS PLAN

COLLAGE ANIMALS

EQUIPMENT

Coloured card for background
Magazines
Scissors
Glue
Templates of animals printed on A4 paper

METHOD

1. Cut magazine pages into thin straight strips (you could use a shredder or a guillotine beforehand)
2. Stick your strips into the outline of your animal, making sure they are straight, stuck next to each other with no gaps and cut to size so they don't go over the outline too much.
3. The thinner the strips, the better the collage will look.
4. Once the animal is completely covered, cut around the outline so you are just left with your animal shape.

5. Stick the collage animal onto the background piece of card.
