

# ARTS & CRAFTS PLAN

## CONCERTINA GIRAFFE

## EQUIPMENT

Green and yellow paper  
Giraffe template  
Scissors  
Glue

## METHOD

Draw round the giraffe template onto yellow paper and colour in the giraffe's face and markings.

Cut out.

Fold the neck of the giraffe into a concertina.

Glue the bottom fold of the giraffe's neck onto the bottom of the green paper.

Glue the top fold of the giraffe's neck near the top of the green paper, so the concertina is visible and not too squashed.

Cut a small strip of paper and make a smaller concertina (about 1cm), and attach onto the back of the giraffe's head.

Glue the giraffe's head by the concertina onto the top of the giraffe's neck so the head can

wobble.

Draw some leaves around the giraffe's for them to eat!
