

ARTS & CRAFTS PLAN

DRAGON EYES

EQUIPMENT

Salt dough / air dry clay
Food colouring
Marbles

Paint
Knives
PVA glue

METHOD

1. Make a few batches of salt dough / use air dry clay
2. Roll out the dough until $\frac{1}{2}$ cm thick. Cut out a fairly big oval shape - this will be the base of your dragon eye.
3. In the middle of the oval place a marble and press down gently.
4. Roll two pieces of salt dough / clay into sausage shapes and place along the top and the bottom of the marble to make eye lids.
5. Decorate around the eye with small pieces of salt dough / clay to create a scaled effect. Make sure the pieces are stuck down firmly. Leave to dry.

WEEK 2

You can then paint, leave to dry and cover with PVA glue to preserve it.
