

ARTS & CRAFTS PLAN

TAPE RESISTANT ART

EQUIPMENT

Masking tape
Giant chalks / Paint
Large piece of cardboard (if wet weather)

METHOD

Using masking tape, map out a large section of the playground into different sections. If the weather is wet this can be done on a large piece of cardboard.

Outside, children can colour in the different sections with chalk.

Inside on cardboard, they could use paint to colour in the different sections.

Finally remove the masking tape to reveal the pattern.
