

# ARTS & CRAFTS PLAN

## OWL BABIES

## EQUIPMENT

Black paper  
White paint  
Yellow paper

Sticks (from outside)  
Black felt tips

## METHOD

- 1) Find some small sticks from outside and stick to the bottom of the black paper. This will be the branch for the owl to sit on!
- 2) Using white paint and brushes / forks / sponges create the body and head of your owl baby. Try to make them look fluffy!
- 3) Whilst the paint is drying, cut out 2 small circles out of the yellow paper and colour in the pupils of the eyes with black pen.
- 4) Once your owl is dry, stick on the eyes and draw a little beak with black pen.
