

ARTS & CRAFTS PLAN

PAPER CRAB CRAFT

EQUIPMENT

Red paper
White / coloured paper
CD and smaller circle to draw around

Paint
Scissors and glue
Pens

METHOD

Paint or colour the background for your crab - e.g. sand and sea. Leave to dry

Draw round the CD onto red paper and cut out the body of the crab.

Draw round 4 smaller circle templates onto red paper and cut out - these will make the pincers.

Fold the larger circle in half and glue on half down onto the background paper, fold at the top.

Fold the other 4 circles in half and stick 2 either side of the body, as in the picture to make pincers.

Draw 6 legs onto the paper with pen and arms to join the body and the pincers

Cut out 2 small circles from white paper and draw on the eyes. Glue onto the background paper and draw the antennae.
