

# ARTS & CRAFTS PLAN

## PLATE MOON AND STARS

## EQUIPMENT

Paper plates  
Gold paper  
Paint  
String  
Scissors  
Pens

## METHOD

1. Draw the outline of the moon onto your plate. It will be like a large rounded m shape. Cut out so you are left with a crescent moon (with a nose!)
2. Paint the moon and leave to dry
3. Meanwhile, cut out a star out of gold card / paper.
4. Pierce a small hole in the top of the star and thread some string through.
5. Once the plate is dry, draw its eye and mouth.
6. At the top of the moon, pierce another small hole and thread the string with the gold star through and knot, so your star is hanging from your moon!
