

ARTS & CRAFTS PLAN

SPIN DRUMMERS

EQUIPMENT

Wooden skewers Beads
Card Selotape
String / wool

METHOD

- 1) Draw 2 circles of the same size by drawing round something e.g pringle lid etc
- 2) Decorate the 2 circles and cut them out.
- 3) Cut 2 lengths of string (the same length)
- 4) Turn one circle upside down and sellotape the end of the wooden skewer onto it vertically.
- 5) Then lay the 2 pieces of string horizontally along the middle of the upside down circle, above the wooden skewer to make a cross shape.
- 6) Carefully glue the other circle on top of the string and wooden skewer, matching edges to the upside down circle so the string and skewer are secured.
- 7) Tie the pieces of string into a knot, either side of the drum.

	8) Tie another knot near the end of the lengths of string either side, add one or two beads and then secure with another knot right at the end of the string to secure.
