

ARTS & CRAFTS PLAN

SUNFLOWERS

EQUIPMENT

Pipe cleaners
Yellow paper
Scissors and glue
Coloured paper

METHOD

1. Cut the yellow paper into thin strips
2. Fold over a strip of yellow paper by bringing the two ends together, making a tear shape.
3. Glue the ends together to hold the tear shape loop in place.
4. Repaper with other yellow strips.
5. Glue the loops down onto the background piece of paper to form a flower shape.
6. Continue to stick different sized loops down in layers to make a flower.
7. Make the brown middle of the sunflower using either a brown pipe cleaner, or using bits of brown paper, glued into the middle.

8. Glue down a green pipe cleaner for the stem. You could add leaves if you wanted.
