# Cooking Plan

## Coconut ice squares

(makes approx 30 pieces)

## Equipment

250g sweetened condensed milk (around ⅔ of a can)
250g icing sugar sifted, plus extra for dusting
200g dessicated coconut
Green food colouring

## Method

1. Using a wooden spoon, mix together the condensed milk and icing sugar in a large bowl. It will get very stiff. Work the coconut into the mix until it's well combined – use your hands, if you like.

2. Split the mix into two and knead a very small amount of food colouring into one half.

3. Dust a board with icing sugar, then shape each half into a smooth rectangle and place one on top of the other.

4. Roll with a rolling pin, re-shaping with your hands every couple of rolls, until you have a rectangle of two-tone coconut ice about 3cm thick.

5. Transfer to a plate or tray and pop in the freezer to set until children go home.

6. Cut into squares with a sharp knife and pack into bags or boxes. Pop in fridge when they get home.
