Science Plan

Fingerprint charms

Equipment

Flour	Cocktail sticks
Salt	Paint
Water	String

Method

1. Make the salt dough and split into small sections
2. Roll salt dough into balls
3. Using a rolling tool, roll the balls into circles
4. Get children to press their fingers into the salt dough, or they can carve a picture. Can also write their name.
5. Using a cocktail stick, poke a hole through the top of the circle
6. Leave salt dough to dry (can use oven or microwave)
7. Paint the salt dough charm and thread the string through and tie.
