Science Plan

Fizzy olympic rings

Equipment

Baking soda	Squeezy bottles x 5
Vinegar	Small bowl
Food colouring	Plastic spoons
Water	Paper plates

Method

1) Mix the baking soda with a little water until it makes a paste like consistency
2) Spoon onto plate and mould into the 5 olympic rings shape
3) Place in the fridge / freezer for up to an hour to set
4) Add vinegar to the 5 squeezy bottles. Add drops of food colouring to make strong colours of the olympic rings
5) Get your baking soda rings out of the freezer.
6) Squirt the coloured vinegar onto the correct ring - watch the reaction take place!!
