Science Plan

Toilet roll bird feeder

Equipment

Cardboard tubes
Lard
Butter knives or popsicle sticks
Birdseed
Hemp twine

Method

1. Use a popsicle stick or butter knife to spread vegetable shortening on a clean toilet paper roll.
The vegetable shortening will make your toilet paper roll water-resistant, which makes this bird feeder perfect for winter!

2. Roll the toilet paper roll on a plate filled with birdseed

3. If desired, string a loop of hemp twine through the toilet paper roll.

4. Hang the toilet paper roll bird feeder on a bush, or slide it onto a branch. The birds will go crazy for it!
